

SCANNER INFORMATION

There is a cost of £150 for the 3D scan, however this comes off the final price. The scan usually takes around 30 minutes which includes photos and full 3D image of your teeth. Within this appointment Manesh will be able to talk you through your treatment options, showing you the process of your teeth alignment and your end result to create your perfect smile!

"Technology has improved over the years, allowing dentists to perform less invasive treatments. Rather than placing thick crowns and veneers we can now improve your smile with the use of tooth alignment, composite bonding or thin porcelain. This is a lot less invasive than traditional methods and now a more widely accepted treatment."

Manesh Lad

APPOINTMENTS

If you would like an appointment, we will try our best to make one as soon as possible and at a convenient time for you. Please book appointments at reception, by calling us during working hours or by using the online booking link for registered patients which you will find on our website. If you have to cancel an appointment, please help us by giving as much notice as possible (at least 24 hours) so we can give the appointment to someone else. Failure to notify the clinic could result in your NHS registration being withdrawn.

SURGERY HOURS

MONDAY	9.00am – 6.00pm
TUESDAY	9.00am – 6.00pm
